

**Institution:** Division of Endocrine Surgery, NYU Grossman School of Medicine and NYU Langone Health

**Position:** Research fellowship in endocrine surgery

**Focus:** Clinical outcomes and health services, translational research, innovation in endocrine surgery

**Duration:** 1 year

**Compensation:** Paid

**Program director:** Insoo Suh, MD – [insoo.suh@nyulangone.org](mailto:insoo.suh@nyulangone.org)

**Division director:** Kepal Patel, MD – [kepal.patel@nyulangone.org](mailto:kepal.patel@nyulangone.org)

**Program coordinator:** Ariana Akkaya – [ariana.akkaya@nyulangone.org](mailto:ariana.akkaya@nyulangone.org)

**Address:** 530 1<sup>st</sup> Ave, 6 HCC, New York, NY 10016

**Office phone:** (212) 263-7710

**Description:**

Starting in the 2026-27 academic year, NYU Langone Health is excited to offer a one-year, paid research fellowship in endocrine surgery, an outstanding opportunity for current surgical residents or individuals who have completed residency and are interested in pursuing an academic career in endocrine surgery.

This immersive research experience allows fellows to work alongside national and international endocrine surgery leaders in the dynamic setting of New York City. NYU Langone Health is consistently ranked among the premier medical centers in the country, and the Division of Endocrine Surgery offers a collaborative, high-energy research environment with exceptional mentorship, clinical volume, and academic opportunity.

**Key opportunities:**

- Mentored research with leaders in thyroid, parathyroid, adrenal, and endocrine oncology
- Participation in high-impact clinical research projects
- Manuscript development, national presentations, and academic productivity
- Exposure to multidisciplinary care and cutting-edge surgical innovation
- Ideal preparation for academic surgery careers, advanced fellowship training, or clinician-scientist pathways

**Candidate qualifications:**

- Current general surgery resident or board-eligible/board-certified surgeon who has completed an accredited surgery residency
- Strong demonstrated interest in endocrine surgery and academic medicine
- Strong work ethic, intellectual curiosity, commitment to scholarly excellence, proactive and independent mindset, and ability to work well in a collaborative team environment
