

AAES Endocrine Surgery Fellowship Experience Log

<b>OPERATIVE CASES</b>				
<b>THYROID</b>	<b>Benign</b>	<b>Malignant</b>		
Thyroid lobectomy				
Completion thyroidectomy				
Total thyroidectomy				
Reoperative thyroidectomy (previous thyroidectomy/parathyroidectomy)?				
How many of the above were pediatric (age <18)?				
Operative approach other than anterior cervical collar incision				
Central neck dissection - initial				
Central neck dissection - reoperative				
Lateral neck dissection - initial				
Lateral neck dissection - reoperative				
How many of the above were pediatric (age <18)?				
<b>PARATHYROID</b>	<b>SGD</b>	<b>MGD</b>	<b>Malignant</b>	
Parathyroidectomy - MIP / ULE				
Parathyroidectomy - BLE				
Reoperative parathyroidectomy (previous thyroidectomy/parathyroidectomy)?				
Transcervical thymectomy				
Parathyroid autotransplantation (including for thyroid surgery)				
How many of the above were pediatric (age <18)?				
<b>ADRENAL</b>	<b>Nonfunctional</b>	<b>Functional</b>	<b>Malignant</b>	
Adrenalectomy - open (including with concomitant visceral resections)				
Adrenalectomy - minimally invasive (transabdominal)				
Adrenalectomy - minimally invasive (retroperitoneal)				
Reoperative adrenalectomy				
How many of the above were cortical-sparing?				
How many of the above were pediatric (age <18)?				
<b>GI NEUROENDOCRINE</b>	<b>Procedure - 1st Assist</b>	<b>Procedure - 2nd assist/other</b>	<b>Clinic</b>	<b>Multidisciplinary Conference (e.g. tumor board)</b>
Pancreas				
Other GI neuroendocrine tumors				
How many of the above were pediatric (age <18)?				
<b>OTHER</b>				
Other (Head and Neck procedures - e.g. Sistrunk)				
Other (General Surgery)				
<b>NONOPERATIVE EXPERIENCE</b>	<b>Performed</b>	<b>Observed</b>		
Ultrasound				
FNA - thyroid				
FNA - lymph node				
Vocal cord examination	<b>Performed</b>	<b>Observed</b>		
Ultrasound				
Laryngoscopy				
Other (e.g., video stroboscopy)
